NOTIFICATIONS

New Delhi, the 13th December 1947

No 88(12)-Tex.I/47.—In exercise of the powers conferred under section 4 of the Cotton Textiles Equalisation Fund Ordinance, 1947 (Ordinance No. XXVIII of 1947), the Central Government is pleased to fix the surcharge on the prices of cloth or yarn produced in any textile mill or factory after the 30th day of November 1947 or, in the case of cloth used after such date, within such mill or factory for the manufacture of any article of clothing or any other article from cloth at the following rates, namely:—

(a) (i) equivalent to $1\frac{1}{2}$ per cent of the specified maximum ex-factory price in the case of all cloth; and further in addition,

(ii) in the case of cloth the count of warp yarn of which is 80's counts or more, equivalent to the difference between the specified maximum ex-factory price and the price calculated in accordance with the formula contained in Schedule A annexed to this notification where the former price is lower than the latter;

(b) (i) equivalent in the case of all yarn to one-half of the difference between the specified maximum ex-factory price and the specified maximum price which can be charged by a person who purchased it directly from a producer; and further in addition,

(ii) in the case of yarn of more than 40's counts, equivalent to the difference between the specified maximum ex-factory price and the price stated in Schedule B annexed to this notification where the former price is lower than the latter; and again in addition,

(iii) at the following rates in the case of yarn:—

Counts up to and including 20s	As. 2 per lb.
Counts 30s to 35s	As. 4 per lb.
Counts 36s to 38s	As. 6 per lb.
Counts 40s to 50s	As. 12 per lb.
Counts 60s to 80s Carded.	Rs. 1 per lb.
Counts 60s to 70s Combed	Rs. 1/4/- per lb.
Counts 80s Combed and above	Rs. 2/8/- per lb.

SCHEDULE "A"
CEILING PRICES FOR CLOTH
Schedule of Realization Multipliers for all Cloth

Counts			Reed	Picks	Realisation multiplier ¹ in Annas per lb. of yarn	Count variation	Cotton adjustment
Group*	Warp	Weft					
1	2	3	4	5	6	7	8
Indian Cotton					Up or down in annas per count		
VIII	30	40	62	62	37.60	.30	No allowance for imported cotton is allowed even if it is used in any cloth linked to this group.
Imported Cotton and Carded							(a) if combed yarn is used increase multiplier by 4.0 ; (b) if Indian cotton is used reduce multiplier by 6.00; (c) In cases of qualities manufactured from warp yarn of counts 42s and over spun from Giza 7 or equivalent Egyptian types excluding Sudans and Uppers, and linked to Groups IX to XII inclusive, an additional 6 as. per lb. will be allowed for the quantity of such cottons actually used in the mixing, if the mill proves to the satisfaction of the Panel Member and the Chairman that such cottons have been used in mixing.
IX	40	40	66	66	46.90	.40	
X	40	50	68	68	48.10

XV	80	100	82	82	97.40		
XVI	100	120	90	90	141.02	1.00	

*Group I to VII have been omitted from the Schedule as warp counts included in these groups are below 30s.

Method of Linking:

1. All varieties of cloth manufactured by mills should be linked with one or the other of the Groups mentioned in above Schedule.

2. The linking shall be done according as the total of the counts of warp and weft in the cloth is nearer approximation to the total of the counts of warp and weft yarn specified in columns 2 and 3 against any of the Groups in the Schedule, with the exception that all cloths with warp above 84's count and made from imported cotton shall be linked to Group IX.

3. The basic adjustment between counts for cloth in each combination of counts shall be arrived at for the composite counts and is to be applied to the total weight of yarn in warp and weft including 5 per cent. allowance for wastage and coarseness of counts. In other words, yarn weight in both warp and weft of any cloth should be worked out on the *actual* counts of yarn used in the cloth and the 5 per cent. allowance for wastage should be added.

4. The following changes in the realisation multiplier for variation in counts of warp and weft, reed and picks and type of cotton etc., are to be made:—

A. COUNT VARIATION: See column 7 in the above Schedule.

B. TYPE OF COTTON: See column 8 in the above Schedule.

C. (i) VARIATION IN REEDS: For every upward variation of 4 reeds the multiplier specified in column 6 in the above Schedule of multipliers after adjustment of count variation if any shall be increased by $\frac{1}{2}$ per cent.

(ii) VARIATION IN PICKS: For every upward or downward variation of 4 picks, the multiplier specified in column 6 in the above Schedule of multipliers after adjustment of count variation if any shall be increased or decreased by 1 per cent.

D. TWISTED YARN QUALITIES:

(a) *Dosuti*: For such qualities which are both double drawn in the warp and double wound in the weft, the appropriate multiplier after adjusting the count, reed and pick allowances shall be decreased by 10 per cent. with a minimum of 8 annas.

(b) *Dedsuti*: For all such qualities with double drawn in the warp or two ply weft the appropriate multiplier after adjusting the count, reed and pick allowance shall be decreased by 5 per cent. with a minimum of $1\frac{1}{2}$ as.

(c) *Twisted Yarn Qualities*: For all qualities manufactured out of double or more twisted yarn, the appropriate multiplier after adjusting the count, reed and pick allowances shall be decreased by 5 per cent (with a minimum of $1\frac{1}{2}$ annas) in case both the warp and weft yarn are twisted and by $2\frac{1}{2}$ per cent. (with a minimum of $\frac{3}{4}$ annas) in case either warp or weft yarn is twisted.

E. WIDTH ALLOWANCE: The above Schedule applies fairly uniformly for all grey qualities of 80" and over and for all bleached, dyed and finished qualities of width 28" and over. For widths lower than 80" grey or 28" bleached, dyed or finished, the multipliers given in the above Schedule shall be increased by 1.00 except in the case of Dhooties and Sarees for which increase shall be 2.00 (splits excluded in all cases).
